

AQUATABS

67mg Tablet

WATER TREATMENT

Aquatabs are purifying tablets that are added to water to kill harmful microorganisms. Each tablet dissolves quickly, disinfecting water in 30 minutes. 1 tablet can treat up to 20 liters of water.

KEY FEATURES

- 💧 **Highly Effective** — Protects against giardia cysts, bacteria, and viruses
- 💧 **Globally Certified** — EPA registered and approved
- 💧 **Simple to Use** — Just drop a tablet in a water container and wait
- 💧 **Fast Treatment** — Entire treatment process is complete in just 30 minutes
- 💧 **Lightweight** — Compact packaging makes Aquatabs easy to carry on the go
- 💧 **Durable** — Plastic, tamper-proof tub allows for tablets to remain effective in any environment
- 💧 **Improves Taste** — Successful comparative taste trials ensure that your water will taste great
- 💧 **Large Volume** — 1 tablet treats 20 liters of clear water or 10 liters of cloudy water

BENEFITS

- **Global Leader** — Aquatabs are the world's leading provider of water purification tablets. Over 32 billion liters (8.5 billion gallons) are treated annually with Aquatabs products.
- **Affordable** — The cost of purchasing Aquatabs is much lower than continuously buying bottled water.

AQUATABS VS TOP COMPETITOR

- **Treatment Time** — Disinfects within 30 minutes
- **Expiration** — Individually wrapped tablets last 5 year from manufacture date
- **Water Coloration** — Coloration of the water does not change
- **Accepted Formula** — Formula is NaDCC based and used globally
- **Cost** — Each tablet is low cost
- **Globally Certified** — Certified by WHO
- **Treatment Time** — Disinfects within 35 minutes
- **Expiration** — Once container is opened, the expiration date decreases to 6 months
- **Water Coloration** — Water color and taste will change
- **Accepted Formula** — Formula is iodine based and banned in European countries
- **Cost** — Higher cost
- **Globally Certified** — Not accepted by many health organizations
