

COLDSTREAM

Stainless Steel Countertop

WATER FILTRATION

The Coldstream Stainless Steel Countertop Water Filter System is a high-quality stainless steel unit designed to provide immediate access to clean drinking water. Utilizing a Coldstream MAX filter, the system easily attaches to the faucet and removes 99.9% of common contaminants.

KEY FEATURES

- Powerful Filtration** — Filter cartridge tested to remove 99.9% of common contaminants, including PFAs
- Globally Certified** — Cartridge tested and certified for contaminant removal by the NSF
- Simple to Use** — Just turn the diverter switch to flow water through the system
- Improves Tastes** — Activated carbon works to remove poor tastes in your water
- Fast Flow** — 2.5 LPM filtration speed
- Large Filter Volume** — Filtering capacity of 3000 L
- Seamless Installation** — Attaches to your countertop sink in just 10 minutes
- More Sustainable** — The filter element is 95% plastic free and manufactured using renewable energy

BENEFITS

- Sustainable Solution** — The stainless steel construction of the system promotes durability and longevity, reducing the need for frequent replacements and minimizing waste.
- Effective Contaminant Removal** — The system is highly effective in removing a wide range of contaminants, including bacteria, viruses, chlorine, heavy metals, pesticides, and other impurities. Feel better about the water coming from your tap with Coldstream's Stainless Steel Countertop Water Filter System.

Our mission at Business Connect is to provide citizens living in the global south with affordable and easy access to clean water, through the creation of a sustainable, local business model. We are headquartered in Grand Rapids, Michigan and have a global network of distributors that impact more than 70 countries. Through every purchase, you are supporting entrepreneurs in the global south to build their own businesses, help themselves out of poverty, and provide access to clean water in their community.
