

WATER FILTRATION

VFX

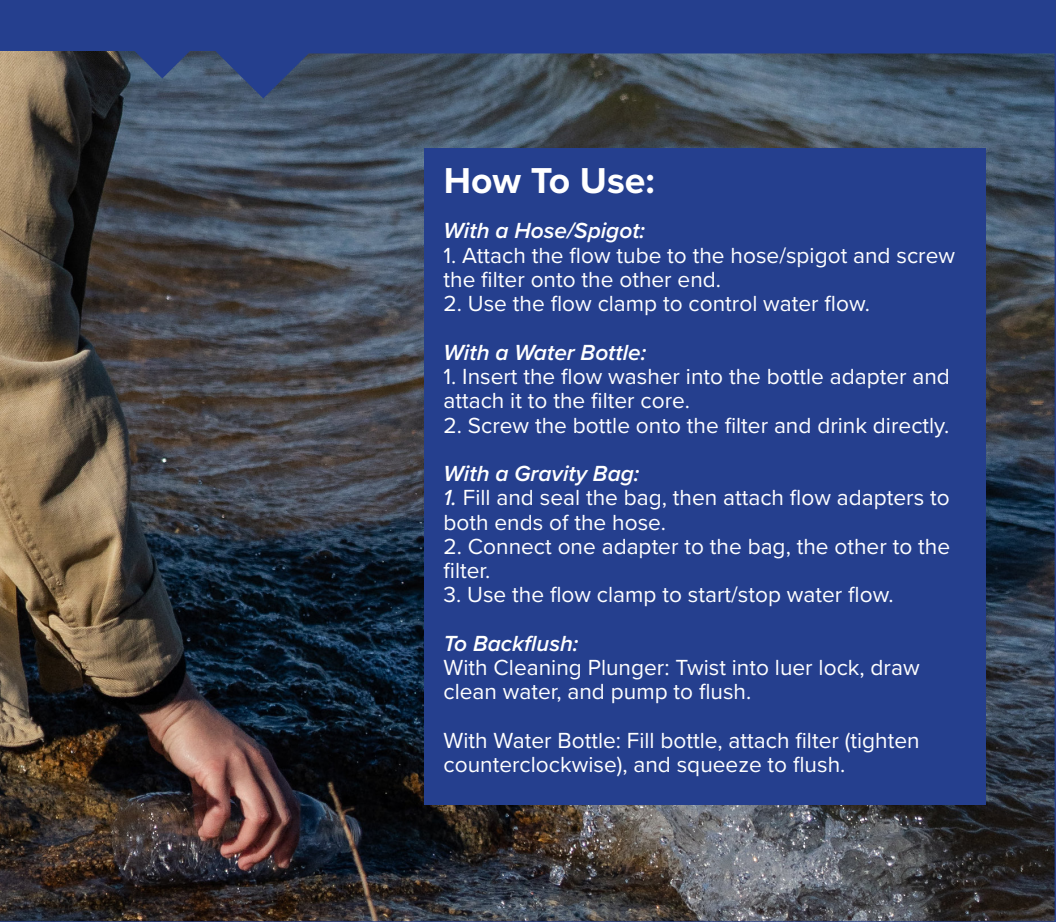

All-In-One Filter

With its 0.1 micron hollow fiber membrane and fast filtration, this portable filter ensures you stay hydrated in record time—whether you're hiking, camping, or dealing with a water emergency.

Key Features

- 💧 Protects against nasty stuff like bacteria, protozoa, and parasites
- 💧 Certified by the WHO, because... of course it is!
- 💧 Fast filtration at 1 liter per minute... who has the time, anyway?
No electricity or labs required

How To Use:

With a Hose/Spigot:

1. Attach the flow tube to the hose/spigot and screw the filter onto the other end.
2. Use the flow clamp to control water flow.

With a Water Bottle:

1. Insert the flow washer into the bottle adapter and attach it to the filter core.
2. Screw the bottle onto the filter and drink directly.

With a Gravity Bag:

1. Fill and seal the bag, then attach flow adapters to both ends of the hose.
2. Connect one adapter to the bag, the other to the filter.
3. Use the flow clamp to start/stop water flow.

To Backflush:

With Cleaning Plunger: Twist into luer lock, draw clean water, and pump to flush.

With Water Bottle: Fill bottle, attach filter (tighten counterclockwise), and squeeze to flush.

Why choose VFX All-In-One Filter?

All-in-One Design — The VFX kit includes everything you need to get started. No extra purchases necessary — it's all here!

Worry-Free Adventures — No need to stress over dirty water again. The VFX ensures clean, safe hydration, whether you're on a rugged hike or a peaceful camping trip.

Fast Filtration — The VFX filters up to 1L per minute, keeping your family hydrated with ease.
