

THYROSAFE

130mg Tablet x 20

ThyroSafe 130mg Potassium Iodide Tablets provide FDA-approved thyroid protection for nuclear emergencies. Essential for relief programs and emergency kits.

KEY FEATURES

- **Federally Approved** - ThyroSafe is a US FDA-approved potassium iodide tablet, meeting the highest standard for thyroid protection in a nuclear radiation emergency.
- **Targeted Protection** - Saturates the thyroid with safe, stable iodine, blocking the opportunity for harmful radioactive iodine to be absorbed by the gland during exposure.
- **Precise Dosing** - A single tablet delivers the full FDA-approved adult dose (130mg), ensuring swift, confident action without the need for complex calculations.
- **Simple to Use** - Each tablet features precision scoring for effortless splitting, allowing for accurate dosing for adults and reliable pediatric dosing when necessary.
- **Fast Administration** - Because the thyroid rapidly absorbs iodine of any kind, this tablet is designed to fill the thyroid with stable iodine effectively when directed by officials.

BENEFITS

- **Federal EPZ Compliance** —ThyroSafe provides the specific, FDA-approved adult dose of potassium iodide recommended by FEMA and the NRC for the 10-mile “Emergency Planning Zone” (EPZ) around the 94 operating US nuclear reactors.
- **Strategic Stockpile Reliability** — This product is not just a preparedness item but a key part of the federal emergency plan, designed to offer reliable thyroid blocking for communities living in the shadow of nuclear facilities.

Our mission at Business Connect is to provide citizens living in the global south with affordable and easy access to clean water, through the creation of a sustainable, local business model. We are headquartered in Grand Rapids, Michigan and have a global network of distributors that impact more than 70 countries. Through every purchase, you are supporting entrepreneurs in the global south to build their own businesses, help themselves out of poverty, and provide access to clean water in their community.
